

Fruit & vegetable preserved products
PRODUCT CATALOGUE

The beginnings

The company's history began in the 1970s. Maria and Stanisław Wójcik decided to make their dreams come true. It was then that the first greenhouse was created, in which tomatoes and gerberas were grown. Over time, new greenhouses and tunnels were created - with cucumbers and chrysanthemums.

On June 17, 1977, fruit and vegetable processing began to operate.

90's. is the next stage in the history – first production of **semi-finished products for confectionery and bakery**, i.e. roasted apples and marmalade, has begun. The plant has also launched a purchase of soft fruit.

2008 – construction of a high-bay warehouse in Skołyszyn.

2010 – commissioning of the 1st part of the production plant in Skołyszyn.

2012 – completion of the second stage of construction of the production plant in Skołyszyn.

Vortumnus today

It is one of the leading Polish producers of premium fruit and vegetables packed in jars of various capacities. It is also the leading manufacturer of semi-finished products for confectionery, bakery and ice cream production and products for the B2B confectionery industry. The offer is also directed to the HoReCa channel.

Vortumnus is a family business, 100% based on Polish capital.

Two production plants

The first plant is located in **Lisów**. The second plant is located in **Skołyszyn**. There the production of semi-finished products for confectionery and bakery takes place as well as logistic services with high-bay warehouse.

Premium

From the beginning, the company focuses on **solid and constant high quality** of products. Works with qualified suppliers. All preserved products are made according to the **traditional recipe**. The uniqueness of the preserved products also lies in the **clean spring water** that is used in the production process.

Certificates

The company works according to **IFS** and **ISO 22000:2006** standards.

Personnel

The company employs **190 workers** and up to **250** in high season.

Assortment

The standard portfolio consists of 220 SKU's. The products are available in jars, cans and buckets.

Partners

The company cooperates with:

- distributors in the traditional market channel (preserved products),
- commercial networks,
- distributors supplying pastry shops and bakeries,
- large industrial customers producing chocolate, cookies and candies,
- hotels and restaurants.

Vortumnus products are available in almost **10 000 stores all over Poland**.

Export

The company supplies products to almost **30 countries around the world**, such as Slovakia, Romania, Lithuania, Hungary, Belarus, Greece and Germany.
